

Stately, handsome Reynolds has it all

By Associated Designs

A handsome and stately contemporary plan, the Reynolds offers close to 4,000 square feet of indoor living space, plus a three-car garage with plenty of storage.

Smoothly painted columns support the graceful entry. Stepped brick detailing rims arched openings to windows and doors, while sidelights and transoms provide sparkling accents to the lofty entry.

Stepping inside the vaulted foyer, you can't help being impressed by the sense of spaciousness. The ceiling here angles up to two stories high in the great room, which is straight ahead. A loft/library bridges and overlooks the first floor, front and back.

To the left of the foyer is a den (or home office). On the right, a wide arched opening leads into the dining room, which is linked to the kitchen via a pass through with a built-in buffet. A large walk-in pantry is opposite the buffet.

The kitchen and nook are bright and spacious. A raised conversation bar defines the two spaces, and an eating bar rims one side of a work island with a vegetable sink. The adjacent utility room is

larger than most and has a bathroom specially designed for cleaning up after coming in with muddy footwear and/or clothes.

A two-sided fireplace can be enjoyed from the great room as well as the pool room, which has a full bar with a bottle storage closet behind it. Pocket doors on both sides of the fireplace allow the two large rooms to be opened or closed to each other.

All of the bedrooms are upstairs. Each boasts direct balcony access plus a walk-in closet. The Reynolds' owners' suite is, of course, expansive and luxurious.
